

Thank you so much for your kind words. Part of the museum collection survived the fire and what was lost is being replaced by the kindness of many people who really loved the museum.

We should open in a couple of months with a collection that is even better than before.

Regards,

Nisan (Cohen)

I hope that Nissan's dream will become reality.

Thank you all for your kindness and generosity, for your support and trust. Thank you all for helping to set up such a beautiful and human project, the support for NISCO MUSEUM.

Please continue and distribute the quest for support and contributions. This is our way to help the revival of the wonderful Museum and our way to help Nissan to make his dream become true, a dream which is also our vote for life and beauty.

Please notice, the mail means also that electricity and communication were reestablished, today December 19, after the horrible fire from December 2, 2010.

With best wishes,
Vera (Moscovici)
